Registration Agency.

The JATC shall be responsible for all training. The JATC, however, may elect to establish a subcommittee consisting of two to four members appointed by the IBEW Local Union, and an equal number of members appointed by the NECA Chapter. The JATC or its properly established subcommittee shall be responsible for the conduct and operation of the Telecommunications Apprenticeship and Training Program in accordance with the standards and policies adopted by the Local JATC. The duties of a subcommittee, where one exists, shall include: interviewing, ranking and selecting applicants and the supervision of all apprentices in accordance with the registered standards and locally approved JATC policies.

Section 9.02 Where the JATC elects to establish a subcommittee, an equal number of members (two, three or four) shall be appointed, in writing, by both the NECA Chapter and the IBEW Local Union. All such appointments shall be in writing designating the beginning and termination dates for each appointment. The term of one subcommittee member from both the NECA Chapter and the IBEW Local Union shall expire each year on a fixed anniversary date. The NECA Chapter and the IBEW Local Union may elect to appoint one or more members of the JATC to serve on the subcommittee.

Subcommittee members serve at the will of the party they represent and may be removed by the party they represent or they may resign. All appointments made to fill unexpired terms shall likewise be in writing.

The subcommittee, where one is established by the JATC, shall select from its membership, but not both from the same party, a Chairman and a Secretary who shall retain voting privileges. The JATC, or its subcommittee, shall maintain a set of minutes for each and every meeting. Such minutes shall be maintained by the JATC and its subcommittee, where a subcommittee is properly established.

Section 9.03 The subcommittee, where one exists, shall enforce standards and policies established and approved by the JATC. Any appeal pertaining to any action of the subcommittee, shall be referred to the JATC for review and resolution. Any decision or ruling of the JATC shall be final and binding on the subcommittee. If the JATC cannot resolve an appeal, the matter shall be properly referred to the Local Labor Management Committee for resolution.

Section 9.04 Though the JATC may elect to establish subcommittees, there is to be only one JATC trust. That trust shall be responsible for all apprenticeship and training trust fund matters. Only properly appointed members of the JATC shall serve as trustees to the JATC trust.

Section 9.05 All apprentices shall enter the program through the JATC, or its subcommittee, as per the properly registered apprentices standards and selection procedures. No candidate shall be assigned to work as an apprentice until they have been properly selected and indentured.

Section 9.06 The JATC, or its subcommittee, shall be responsible for the assignment, or reassignment, of all Telecommunications Installer/Technician apprentices. All such job training assignments, or reassignments, shall be made in writing and the Local Union Referral Office shall be notified, in writing, of all job training assignments. The JATC, or its subcommittee, shall have the authority to transfer any apprentice, as it deems necessary or appropriate.

Section 9.07 The JATC may terminate any indenture prior to the completion of apprenticeship. When an indenture is terminated, the former apprentice shall not be eligible for employment under this agreement, in any classification, unless the individual has properly reapplied for the Apprenticeship program and been selected. The individual shall not be permitted to be classified as and Installer/Technician, or provided any other classification under this agreement, until two years after they should have completed apprenticeship under their indenture, and they can demonstrate skills and knowledge to warrant such classification.

Section 9.08 Though the JATC cannot guarantee any number of apprentices, any employer signatory to this agreement shall be entitled to a ratio of one apprentice to one Telecommunication Installer/Technician, or Technician level employee on any job. The JATC shall maintain an active list of qualified applicants, as per the selection procedures, in order to provide an adequate number of apprentices to meet the one-to-one ratio. Applicants shall not be selected and indentured when indentured apprentices are available for on-the-job training assignments. If the JATC is unable to provide an eligible employer with an apprentice within ten working days, the JATC shall select and indenture the next available applicant from the active list of ranked applicants.

Section 9.09 Each apprentice shall be required to satisfactorily complete the three-year course of study provided by the NJATC as a minimum requirement for completion of their related classroom training. The JATC may also elect to require additional training options that are provided for in the National Guideline Standards. The total term of apprenticeship shall not require more than three years related training.

Section 9.10 The apprentice is required to satisfactorily complete the minimum number of on-the-job training hours specified and properly registered in the Telecommunications Installer/Technician Apprenticeship and Training Standards.

Section 9.11 The apprentice is to be under the supervision of an Installer/Technician, a Technician level employee, or qualified supervisor. Supervision will not be of a nature that prevents the development of responsibility and initiative. The apprentice shall be permitted to perform any and all job tasks in order to properly develop trade skills and become proficient in the work processes associated with the trade. Installer/Technicians and Technicians are not required to constantly watch or observe the work of the apprentice. The apprentice is not prohibited from working alone when the Installer/Technician, Technician or Supervisor is required to leave or is absent from the job.

Section 9.12 The employer shall contribute to the local Health and Welfare Plans and to the National Electrical Benefit Fund (NEBF) on behalf of all apprentices. Contributions to other

benefit plans may be addressed in other sections of this agreement.

Section 9.13 Upon satisfactory completion of Apprenticeship, the JATC shall provide the apprentice with a diploma from the NJATC. The JATC shall encourage the apprentice to seek college credit through the NJATC. The JATC may also require the apprentice to acquire any appropriate license required for Installer/Technicians to work in the jurisdiction covered by this agreement.

Section 9.14 All Employers subject to the terms of this Agreement shall contribute the amount of funds specified by the parties' signatory to the local apprenticeship and training trust agreement. Effective October 1, 2013 contribution rate is \$.72 per hour. This sum shall be due the Trust Fund by the same date as is their payment to the NEBF under the terms of the Restated Employees Benefit Agreement and Trust.

ARTICLE X SEPARABILITY CLAUSE

Section 10.01 Should any provision of this Agreement be declared illegal by any court of competent jurisdiction, such provision shall immediately become null and void, leaving the remainder of the Agreement in full force and effect and the parties shall, thereupon, seek to negotiate substitute provisions which are in conformity to the applicable laws.

ARTICLE XI CODE OF EXCELLANCE

Section 11.1: The parties to this Agreement recognize that to meet the needs of our customers, both employer and employee must meet the highest levels of performance, professionalism, and productivity. The Code of Excellence has proven to be a vital element in meeting the customers' expectations. Therefore each IBEW local union and NECA chapter shall implement a Code of Excellence Program. The program shall include minimum standards as designed by the IBEW and NECA.
